## ANTI-FINGERPRINT-OBERFLÄCHE

Eine patentierte Technologie macht die seidenmatt Oberfläche unserer Frontserie Jette zur Sensation: pflegeleicht, warme Haptik und mit einem unwiderstehlichen Erscheinungsbild. Das Ergebnis zeichnet sich durch einen besonderen Anti-Fingerprint-Effekt aus: Dabei sind Fingerabdrücke auf der Oberfläche mit bloßem Auge nicht oder nur sehr schwach wahrnehmbar.

### Fronts with anti-fingerprint surface

A patented technology makes the silky matt surface of our range of Jette fronts an absolute sensation: low-maintenance, warm feel and irresistible look. The result is distinguished by a unique anti-fingerprint effect: finger marks on the surface are either invisible or barely noticeable.

### Fronten met anti-vingerprint-oppervlak

Een gepatenteerde technologie maakt het zijdematte oppervlak van onze frontenserie Jette tot een ware sensatie: een onderhoudsvriendelijk, warm aanvoelend en onweerstaanbaar uiterlijk. Het resultaat wordt gekenmerkt door een bijzonder anti-vingerprint-effect: vingerafdrukken op het oppervlak zijn hierdoor met het blote oog niet of nauwelijks te zien.

### Façades avec traitement anti-traces de doigts

Une technologie brevetée procure une sensation de bien-être au contact de la surface mate soyeuse de nos façades Jette : entretien facile, toucher agréable et élégance irrésistible. Un résultat parfait grâce à un traitement spécial anti-traces de doigts : ainsi, les traces de doigts sur la surface sont invisibles ou pratiquement invisibles.

### Superfi cie antihuellas

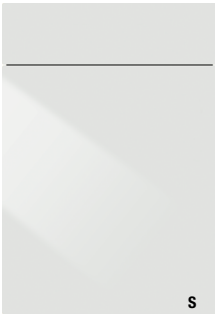

Una tecnología patentada convierte la superfi cie en satinado mate de nuestra serie de frentes Jette en toda una sensación: fácil de limpiar, agradable al tacto y con una apariencia irresistible. El resultado destaca por un sensacional efecto antihuellas: Las huellas dactilares en la superfi cie apenas se perciben a simple vista.
